

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my TracFone telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few (or no) long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my TracFone very infrequently. I have a TracFone exactly because there is not a monthly charge. Some months I don't use the phone at all! I urge you to reject the proposal to move the USF collection system to a flat-fee.

We already pay the USF (and a state USF) on our residential phone bill! Please keep us from double taxation!

Sincerely,

Deanne Hedglen
